Project DVC Manual

By Orgfet

V1.0,0

Content:

1. The things you need
2. How to set it up

1. The Things you need.

List:

1. Raspberry Pi Zero W or other.
2. Camera, I recommend a Raspberry Pi Camera v3
3. Power cable
4. Micro SD-Card

2. How to set it up

2.1 Installation of the OS (headless)

Go to the official Raspberry Pi side and to the OS

2.2 install apache2

"sudo apt install apache2 -y"

2.3 go to var/www/html

"cd ~"

"cd var/www/html"

2.4 Download my data

Go to GitHub and download the Data.

2.5 Paste the HTML files into the directory

Transfer them to the Server using FileZilla or something similar.

2.6 Connect the camera

Connect your Camera.

2,7 It should work now
